PREFACE

The coins offered here for sale includes a fine range of dates of the Spanish Half-Scudos and a good selection of South American coins in the Gold Series. The silver coins are chiefly European, and the Collection is especially strong in the coins of the German States and those of Italy. The bulk of this portion of the Sale is from the Collection of the well-known American Numismatist, the late George Bauer. There is also a small but choice selection of English Silver Coins.

An Index to the Catalogue will be found on pages 59 and 60.

PRICED CATALOGUES

Coins

*A*FTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

The final test of value must always be auction prices rather than the figures given in books of reference for changing times and fashions soon render the latter obsolete and misleading.

On the average we issue twelve Coin catalogues a year, some of which are usually of sales of important collections. The **priced catalogues** are posted to subscribers as soon as ready, usually about three weeks after the date of sale and the subscription is

THIRTY SHILLINGS per annum
